## Our Vow to Support America's Food Industry

Dear Customers and Friends:

As the global effect of COVID-19 continues to evolve, we at Latin Foods Logistics are unconditionally committed to the health and well-being of our employees, communities, and our Nation. Through the challenges we face within our distribution centers, we see the opportunity to provide help to those who need it most due to the high demand for essential food products; it also represents an opportunity to contribute to the relief of the disruption that COVID-19 has caused globally.

We are an industry that is already governed by strict health and safety standards, so we have strengthened our existing sanitation practices; we have also implemented new provisions to make our facilities even more reliable and safer during these times.

**We are in a situation where we are an essential service.** Recently, the Governor of California issued a statewide lockdown order; however, Latin Foods Logistics is included in the Governor's list of essential businesses as a firm that provides services that drive logistics operations, including the storage and distribution of food products. We will continue to operate as usually in Texas and California.

With a deep sense of social responsibility, we stand in solidarity with the people who have been affected by the consequences of this situation. We appreciate the trust you have placed in us, and for this reason we work with the same responsibility, maintaining our promise of legality, safety and quality. We are ready to serve you in the long term.

We will gladly answer your questions and provide you with more information by calling 1(956)334-2153 or 1(956)724-4877.

Yours sincerely,

Shelby Lopez

General Manager
